

BCC Rail Ltd

Connecting You to the Right Rail and Safety Training

At BCC Rail, we make it easy for businesses and individuals to find the right course, in the right place — without the stress of searching.

Tell us what training you need — we'll respond within 24 hours.

We'll match you with the best available course, as close to your preferred location as possible. Whether you're a business or an individual, we'll connect you with trusted, accredited providers — fast and hassle-free.

Who We Help

Supporting Both Employers & Individual Learners

We work with employers looking to upskill their teams, and individuals searching for the right course. Whether you need accredited providers or simply don't know where to start — we'll help you find the right solution, fast.

01.

Experience

Years of hands-on experience helping match learners and businesses to trusted training centres across the UK.

02.

Education

We understand industry standards — and work only with certified, fully accredited training providers.

03.

Certificate

Courses we help you access lead to industry-recognised qualifications across rail and safety.

Flexible Training Options

Learn new skills and gain qualifications through our network of trusted training centres — on your schedule.

Why Choose BCC Rail?

We've built a nationwide network of **accredited, trusted providers** across Rail Construction and Health & Safety. We'll match you with the best — fast.

Best Industry Leaders

We only work with approved, certified providers known for quality and safety.

Flexible, In-Person Training

We'll arrange courses at your site or connect you with trusted nearby training centres — whatever works best for your needs.

Support for Businesses & Individuals

We assist both companies and learners in finding the right training, without the stress of searching.

All Courses

At BCC Rail, we specialise in connecting individuals and businesses with trusted, accredited training providers across the UK. Acting as the link between learners and industry-approved trainers, we make it simple to access high-quality programmes that meet strict safety and compliance standards. From initial certifications to advanced technical training, we ensure you learn from the right people, in the right way.

Course Programmes

Through our network of approved providers, we offer training tailored to rail, engineering, and electrical operations. Whether you choose on-site delivery, a partner training centre, or blended learning, we handle the arrangements so you can focus on gaining the skills you need — without the hassle of searching for providers yourself.

Popular Courses

High Voltage (HV) Training

Specialist courses for safe, competent, and compliant work on high-voltage rail systems.

- **Dist 16 – HV Competent (Initial or Recert)** – Certification for safe HV working practices.
- **Dist 17 – HV Assessor (Initial or Recert)** – Training to assess HV Routes.
- **Dist Level B – AC/DC Isolation & Earthing Traction Equipment** – Safe isolation and earthing of traction equipment.
- **Dist Level C – Access & Egress to Traction / Non-Traction HV Locations (Initial or Recert)** – Procedures for safe entry and exit.
- **Dist Level D – Accepting H Permits (Initial or Recert)** – Managing and working under HV permits.

Personal Track Safety (PTS) Training

Core safety training for working on or near the railway track.

- **PTS E-Learning (Setup & Enrol Only)** – Online preparation module.
- **PTS AC Initial** – Basics of working safely on AC electrified railways.
- **PTS DCCR Initial** – Training on DC conductor rail safety.
- **PTS AC & DCCR Recertification** – Renewal of AC and DC PTS qualifications.
- **PTS AC & DCCR Combined Initial** – Combined initial certification for AC and DC systems.

Site Safety & Supervision

Courses for roles ensuring safe management and supervision on site.

- **Site Warden (Initial & Recert)** – Site boundary management and worker protection.
- **Controller of Site Safety (Including OLP/CRP/PTS R) (Initial & Recert)** – Overall safety management on trackside worksites.
- **Individual Working Alone (Initial & Recert)** – Safe working procedures for lone workers.
- **Engineering Supervisor (Initial & Recert)** – Supervising engineering works safely and effectively.
- **Possession Support Initial** – Supporting safe track possession operations.
- **Protection Controller (Initial & Recert)** – Managing site protection arrangements.
- **Safe System of Work Planner (Initial & Recert)** – Planning and implementing safe working systems.

DC Isolation Training

Specialised training in isolation procedures for DC rail systems.

- **DC Isolation Level B ST-I and SW-I (Initial & Recert)** – Strapping and switching isolation techniques.
- **DC Isolation Level B ST-I (Initial & Recert)** – Strapping isolation procedure.
- **DC Isolation Level B SW-I (Initial & Recert)** – Switching isolation procedure.
- **DC Isolation Level B Temporary Isolation (Initial & Recert)** – Temporary safety isolations.
- **DC Isolation Level A Procedure A (ES) (Initial & Recert)** – Procedure for Engineering Supervisors.
- **DC Isolation Level A Procedure B (AP) (Initial & Recert)** – Procedure for Authorised Persons.

Specialist Rail Training

Focused training programs for specialist skills in rail operations.

- **PTMP 16 – Safe Use of Trolley Equipment** – Operating trolley equipment safely.
- **ALO Planner & Coordinator (Control of ALO – OTP 16)** – Planning and coordinating Adjacent Line Open works.
- **CRE – DCCR 01 (Basic Maintenance)** – Basic maintenance of DC conductor rails.
- **CRE – DCCR 02 (Advanced Maintenance & DC Rail Hand Back)** – Advanced maintenance and hand-back procedures.
- **Track Induction (TR00) – Rail site induction training.**
- **Supervisors Visual Track Inspection** – Skills for track inspection and defect identification.
- **Supervisors Visual Track Inspection** – Skills for track inspection and defect identification.
- **LOADER (Issue a COI)** – Loader operation and issuing Certificates of Identity.

About BCC Rail

BCC Rail helps individuals and organisations across the UK find the rail training courses they need. We work with approved training providers to connect students with programmes that develop skills, ensure compliance, and promote safety on the railway.

What We're All About

Our mission is to make it simple for rail professionals to access the right training. We guide students through course options, advise on certifications, and ensure they are matched with the most suitable providers for their requirements.

Learn Something Every Day

Brian Cunnea leads BCC Rail with a focus on helping people navigate the rail training landscape. His goal is to make sure every student finds the right course, gains the necessary qualifications, and feels confident in their rail career.

Founder/Owner

Our Vision

Who We Are

“Every journey in rail starts with the right training.”

BCC Rail exists to make rail training simple and accessible. We connect students and organisations with the right courses and approved training providers, ensuring skills development, compliance, and safety across the UK rail industry.

We focus on continuous learning. Every course we help arrange is designed to build practical skills, improve knowledge, and support a competent, confident workforce.

Our approach is to guide learners through the rail training landscape with clarity and expertise. We advise on the best courses, help with certifications, and ensure each individual is matched with a provider that meets their needs.

At BCC Rail, our goal is to promote professional growth, safety, and excellence in rail operations, making it easier for students and organisations to achieve their training objectives.

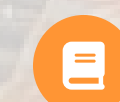

Learn From Industry Leaders

Gain knowledge and skills from experienced professionals. We connect you with trusted training providers to ensure high-quality learning in the rail industry.

Learn at Your Own Pace

Choose courses that fit your schedule and learning style. We provide flexible training options to suit your needs.

Professional Certification

Earn qualifications that support your career development. We help you access courses that provide recognised certifications for the UK rail industry.

BCC Rail connects individuals and businesses with trusted, accredited training providers across the UK.
